

MUNYA ABDULHAMEED AL-HAMMADI

Senior Mobile Application Developer (Flutter & Android)

+967 777020935 | Munya1234a@gmail.com | [LinkedIn Profile](#) | Aden, Yemen

SUMMARY

Accomplished Mobile Application Developer with a Master's degree in Information Technology and over 8 years of hands-on experience in building scalable, user-centric mobile applications. Specialized in multi-party platforms, e-commerce solutions, and cross-platform ecosystems using Flutter/Dart as well as Native Android (Java/Kotlin). Proficient in applying Clean Architecture (MVVM), Jetpack Compose, GraphQL, and RESTful API integrations, with a proven track record of deploying production-ready applications on Google Play and Apple App Store.

TECHNICAL SKILLS

Mobile Frameworks & Languages: Flutter, Dart, Native Android (Java, Kotlin, Jetpack Compose)
Architecture & Software Design: MVVM, Clean Architecture, Object-Oriented Programming (OOP), Data Structures
APIs & Backend Integration: GraphQL, RESTful APIs, PHP (Flight framework)
Databases & Local Storage: SQLite, Room
Developer Tools & Workflow: Git, GitHub, Android Studio, VS Code, Jira, Google Play Console, App Store Connect
Methodologies: Agile / Scrum, Problem Solving & Analytics, App Optimization

EXPERIENCE

- Bazzarry E-commerce Company**
Android Developer

May 2022 – July 2026
Aden, Yemen

 - Engineered and optimized core features for multi-party e-commerce platforms using **Kotlin, Java, MVVM Architecture, and Jetpack Compose**, ensuring high modularity and maintainability.
 - Integrated complex **GraphQL APIs** to manage real-time Magento product catalogs, inventory updates, and synchronized user transactions.
 - Enhanced client-side application performance, resolved critical memory leaks, and maintained a stable code base throughout agile release cycles.
- BB SOFT Company for Information Technology**
Flutter Developer

Aug. 2020 – Apr. 2022
Aden, Yemen

 - Led mobile app engineering efforts using **Flutter & Dart**, creating high-performance cross-platform applications for Android and iOS.
 - Deployed multiple client and enterprise applications directly to the **Google Play Store and Apple App Store**.
 - Authored custom backend RESTful APIs using PHP (Flight framework) to ensure seamless data communication between mobile clients and servers.
- National Cash Transfer Company**
Mobile Application Developer

Dec. 2019 – June 2020
Aden, Yemen

 - Developed and maintained secure mobile applications for financial transactions and cash transfers.
 - Conducted system troubleshooting, software maintenance, and security enhancements to guarantee high reliability for end users.
- YOU Company for Information Technology**
Android Developer

Nov. 2016 – Dec. 2017
Aden, Yemen

 - Built, tested, and published over 5 Native Android applications on Google Play Store across media, education, and news sectors.
 - Collaborated with team leads to streamline application production and meet deployment targets.
